

Leave a little love – Udo Jürgens

Time to come down from our star,
happy we went up so far.
Lost in the dark until you showed me
what the starlight can do for a feeling.
You gave me so much that won't go away.

Lucky we both felt it all.
Now it won't hurt ...hmmmm....when we fall.
When we become beautiful stories,
that's the least we could do for each other,
for moments will go and feelings will stay.

Udo + Chor
You will leave a little love before you leave me.
Just a little something to get by on.
Just a little part of you that I can save, baby
Leave a little love before you leave me.
Something that we both can say goodbye on.
Leave a little love – I may need it someday,
need it someday.

Watching your soul in your eyes,
hearing your heart...hmmmm.... in your cries.
Someday we'll be two other people.
So I hold on to you to remember
the way that we were, when we were this way.

Udo + Chor You will leave a little love before you leave me.
Just a little something to get by on
Leave a little love – I may need it someday,
need it someday

Leave a little love.
Chor: Leave a little little....
hmm....Leave a little something,
Leave a little little little part of you.
Leave a little love
hmm....Leave a little love
Leave a little little....
Leave a little love
to me - leave a little love before you leave me.
Leave a little love before you leave me

Udo + Chor
Just a little something to get by on.
Leave a little love – I may need it someday, baby.
Leave a little love before you leave me.
Something that we both can say goodbye on.
Leave a little love – I may need it someday,
need it someday

Ohoo...Leave a little love.
Chor:

Leave a little little....
Leave a little something, Leave a little little little part of you.
Leave a little love
hmm....Leave a little love – I may need it someday.
Leave a little little....
I may need it someday.
Leave a little little....
Leave a little love,
Leave a little love
Just leave a little love, baby.
Leave a little little.... Leave a little love
Hmm....Leave a little love.
